Course Description

**Costume Construction I** – This Course is an introduction to the historical significance of costume design and construction. They will then have an over-all look at the technical side of stage costuming, with an emphasis in construction. Students will develop practical skills using the machinery as well as learning patterning for the various parts of a costume. They will learn hand-sewing, fabric dyeing techniques as well as the organizational tools such as budgeting costumes for a show.

2 lecture, 2 credits

No prerequisites and/or co-requisites.

Student Learning Objectives: As a result of meeting the requirements of this course, students will be able to

1. Describe the historical perspective of costume design and construction

2. Demonstrate the fundamentals of hand sewing, stitching and basting. Learn the basic components of a sewing machine.

3. Demonstrate the ability to operate, thread, and maintain a sewing machine and a surger.

4. Analyze and explain the differences in fabrics as to their form and function as well as demonstrate a basic understanding of color and its role in costume design.

5. Research and identify the collaborative act of costume design and all that is required of a designer, assistant designer, draper, cutter, pattern maker, etc.

6. Utilize appropriate costume and stagecraft terminology.

Student Learning Outcome Assessments: In support of the above-mentioned goals, each student will be assessed as follows

1. The historical role of costume design in the theatre will be assessed through students’ participation in class discussions and on the midterm and final exams.

2. Demonstrate the ability to perform various types of hand sewing as well as identify all of the various components of a sewing machine through a written examination and by a hands-on, in-class demonstration. Must be able to operate a sewing machine and a surger proficiently.
4. Through practical, in-class design work, the student demonstrates their ability to recognize the significance and the role that color plays in the overall design of costumes for a production.

5. The overall contribution and collaborative nature of a costumes designer and all of the other positions in the costume shop will be identified and explained in a research paper.

6. Ability to use stage costume construction terminology both through written examination and practical application

Course Content

**Costume Construction I** – This studio course will guide the student through all the practical aspects of translating a costume design from sketch to reality, and how to manage wardrobe needs in the costume shop when preparing and maintaining costumes for performance. It will prepare the student for the tasks relating to designing shows for professional theater, or assisting professional designers at Bergen Community College. During the semester students will develop practical skills using the machinery as well as learning patterning for the various parts of a costume: bodice, skirt, sleeves, hats, etc. They will learn hand-sewing as well as fabric dyeing techniques as well as the organizational tools such as budgeting costumes for a show and costume charts. The course uses historical and conceptual ideas involving drawing and painting.

Technological Literacy

Technological literacy is a key component to this course. Students will be introduced to several different types of machines used in the construction of costumes. They will be able to read and comprehend the accompanying instruction booklets for the sewing machines and the surgers being used in class.

Course Texts and/or Other Study Materials

Grading Policy

The final grade in this course will be determined by a student’s overall mastery of the subject matter as evidenced on exams, quizzes, oral presentations, homework assignments, consistent attendance and quality class participation. There will be one mid-term exam, one final exam, 2 final projects, and weekly assignments.

- Attendance, preparation and active participation 15%
- Small Assignments, Homework 10%
- Basic Techniques 10%
- 2 Smaller Projects (2 @ 15%) 30%
- Final Project 20%
- Final Exam (comprehensive) 15%

Criteria for Evaluation: Attendance and participation
a. consistent attendance**
b. passing test scores
c. evidence of studying text and assignments
d. completed assignments
e. quality classroom responses
f. overall demonstration of comprehension of the course material

90-100 = A  86-89 = B+  80-85 = B  76-79 = C+  70-75 = C  65-69 = D
E = Unofficial Withdrawal  W = Official Withdrawal  INC = Incomplete  0–64 = F
Attendance Policy

BCC Attendance Policy:
All students are expected to attend punctually every scheduled meeting of each course in which they are registered. Attendance and lateness policies and sanctions are to be determined by the instructor for each section of each course. These will be established in writing on the individual course outline. Attendance will be kept by the instructor for administrative and counseling purposes.

Students will be evaluated on attendance and participation in class using the following criteria: consistent attendance; evidence of studying text and assignments; completed daily assignments; quality classroom responses.

Each class can potentially count as .837 points towards the possible 15% score for attendance and participation. A letter grade totaling 15% of the final grade will be determined by the instructor based upon the aforementioned criteria.
